

# Introducing FRS eClipse

**eClipse** is a powerful, easy-to-use, web-based ordering system that allows clients to order and view background searches 24/7. Delivering instant results, advanced data security and superior usability, **eClipse** is the best client interface in the background screening industry.

Surprise and delight your clients by providing them with the latest in responsive mobile design. With 500+ client-level settings, you can easily tailor your services to each client. The "instant" and "express" ordering services give your clients the information they need on demand. An extremely flexible interface offering a wide array of robust tools that increase client engagement, loyalty, and your revenue.

*\*Compatible browsers: Chrome, Edge and Firefox.*
